Are you the hero journeying through epic, monster-filled adventures where the ultimate fate of Neverwinter rests on your shoulders? Are you the builder creating adventures that challenge paladins, sorcerers or anyone daring to test your campaign acumen? Are you the Dungeon Master the omniscient being in your adventure world, guiding your friends through exciting alleyways, managing their game world and challenging them as they live and die in your campaign world?

Neverwinter Nights: your ultimate adventure begins here. Do you answer the call?

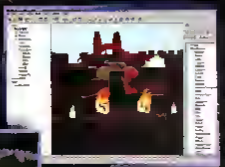
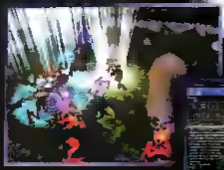
Neverwinter Nights revolutionizes PC gaming by giving players the power they've never had before - power to create a universe. With the Neverwinter Aurora Toolset, the game you want is the game you build. Whether venturing through the single-player campaign or participating online with your many friends (or enemies), Neverwinter Nights is any game you want it to be. With a wide array of customizable characters and environments, it is a game of endless variety. It is the evolution of PC gaming. Neverwinter Nights. It changes everything.

Adventure through the 80+ hour Official Campaign – an epic story of faith, war and betrayal that brings unprecedented richness to the single-player and multiplayer experience.



Create your own quest with the Neverwinter Aurora Toolset – just drag, drop and play your way to the last or only remaining world in your own design. A wide selection of customizable elements means the variety of characters, monsters and environments is nearly limitless.

Incredible lighting and particle effects make this a whole new class of 3D RPG.



Invite players from around the world into a world that you control with the Dungeon Master Client. You determine the objectives, create the plot twists, lay down the obstacles – whatever game you want is the game you get.

The easy to use, straightforward interface provides immediate access for new players and RPG veterans alike.

Multiplayer game matching service built integrated into the game.
